

# VEDANT CHAWLA

Entrepreneur | Digital Marketer | Content Creator

I'm Vedant Chawla, an Indian entrepreneur, digital marketer, and content creator. I travel, live, and work internationally while exploring how technology, location, and smarter systems can improve our quality of life.

## MY STORY

My journey started in India with big dreams and countless questions. Over the years, I stepped out of my comfort zone, built online businesses, and traveled to different countries to learn how the world works. Today, I share everything I learn about global living, technology, and better systems to help ambitious individuals create more freedom, opportunity, and impact.

*"The world is full of opportunities. We just need the right mindset, tools, and location to access them."*
